About Our Project
```

"ArtVista." ArtVista aims to bring the experience of visiting an art gallery online, allowing users to explore and appreciate a wide range of artworks from different artists and genres.

The website should provide an innovative and visually captivating user experience, focusing on showcasing the artworks in a creative and interactive way.

```
steps to run this Project on your system
```

- install zip file and then extract all files in it
- install required extension on vscode like html runner and all extensions to run html css and javascript
- after the successful installation of all the required extensions and the now we have to start execution part
- In the execution part first start from Mainpage.html file
- from that we can see all the project names and description about project
- we then able to see three main categories like Pencil art work and artists and genres
- for each we can able to see each one row/box having one image and description and one button to see detailed information regarding each genre
- in that each we are having each category 5-15 images of each
- we are having zoom in and zoom out option for each image
- we are having option to submit the feedback reaction or suggestion on the down of each page
- by these whole project we are achieving the experience of visiting an art gallery online of a wide range of artworks
- from different artists and genres.
